- A. so B. and C. but D. if
 16. After coming home, she cleaned the floor.....cooked dinner.
 A. but B. however C. moreover D and

V. Read the text carefully then answer the questions:

In Western countries, electricity, gas, and water aren't luxuries but necessities. Companies now realize that consumers want products that will not only work effectively, but also save money.

For most North American households, lighting accounts for 10 percent to 15 percent of the electricity bill. However, this amount can be reduced by replacing an ordinary 100-watt light bulb with an energy-saving bulb. These bulbs use a quarter of the electricity of standard bulbs and last eight times longer. Therefore consumers can save about US\$7 to US\$21 per bulb.

Questions

1. What are Western consumers interested in?

→

.....

2. What can we do to spend less on lighting?

→

.....

3. Mrs. Jones uses only three ordinary bulbs and she pays US\$12 for lighting. How much will she pay if she uses three energy-saving bulbs instead?

→

.....

4. What should you do to save energy in your class?

→

.....
